

Bride and Groom Clothes Hangers

What you'll need:

Other Supplies:

- **Wooden Hangers**
- **Pencil - optional**
- **Pattern - optional**

Step by step direction

Step 1

Once you have the hangers you wish to etch on, draw your pattern onto each hanger.

Then, using the Dremel Micro and an engraving bit, such as the Dremel 106 Engraving Cutter, etch the pattern onto the hangers. For soft woods, use a lower speed, and for hard woods use a higher speed.

Once done engraving, give them to the bride and groom as a personalized present!
